Shakin' Stevens has reissued his timeless smash hit single 'Merry Christmas Everyone' on vinyl - **available now**. The chart-topping perennial festive favourite will be released alongside the original B-side cuts, a festive cover of 'Blue Christmas', and original track 'With My Heart' – co-written by Shaky. Fans are treated to the collection of Christmas classics on 12" vinyl, contained in an advent calendar sleeve, reminiscent of the original release. This reissue is a must-have to chase away the winter blues this festive season.

The three tracks have been re-mastered specially for vinyl at the legendary Air Studios in London, ensuring the best high-fidelity sound to give these Christmas classics a new lease of life. This reissue also contains the original advent pictures of Shaky within a 12" die-cut advent calendar sleeve - each door opening to reveal classic photos of Shaky. The Advent calendar has also been carried over onto [Shaky's social channels](#) and fans are encouraged to tune in each day to see a new piece of festive content revealed in the run up to Christmas.

With over 200 million streams (and counting), 'Merry Christmas Everyone' is a staple in the UK Charts at Christmas time. A seasonal favourite for all generations, the song has reached No.6 for the past two years (and even higher throughout Europe where it landed at No.4 in Germany, Poland, Switzerland and Austria) and this week has already returned to the UK Top 20.
